EDUCATION

University of Massachusetts Amherst

Amherst, MA, USA

B.S. in Computer Science and Mathematics (Statistics and Data Science) - GPA: 3.7/4.0

May 2026

Coursework: Machine Learning, Artificial Intelligence, Data Structures & Algorithms, Linear Algebra, Probability & Statistics

EXPERIENCE

PropertyAngel Management Pvt. Ltd.

Bangalore, India

Tech Lead

June 2026 – Present

- Lead a team of 3 engineers reporting directly to the CEO, owning technology strategy and delivery across the company.
- Direct development of the AI voice agent used for marketing and outreach, the company's Zoho Creator/CRM infrastructure, and a rebuilt company website.
- Currently leading development of PropertyAngel's mobile app, extending the customer portal to iOS and Android.

AI/ML Engineer

May 2025 – Sep 2025

- Built a multi-agent AI system (15+ GPT-4 bots via LangChain) automating rent/sale pricing, property search, and rental agreements, with FAISS semantic search over 10,000+ listings across 15+ cities.
- Deployed on Docker/Google App Engine, cutting token usage by 40% and sustaining sub-3s responses across 1,000+ sessions.

Numinosity

Mumbai, India

AI/ML Engineer Intern

Mar 2026 – May 2026

- Built the initial company website and product demo for this early-stage shoppable-entertainment startup, working directly with the cofounders; core elements remain live at numinosity.ai.
- Developed a ML fashion-detection pipeline (Gemini 2.5 Flash, Streamlit, SerpAPI) that powered a proof-of-concept product used in venture capital demos.

Seba Growth Partners

Burlingame, CA, USA

Automation Engineer

Jan 2026 – Feb 2026

- Evaluated outreach and CRM tools (Salesforce, Clay, Reply.io, LinkedIn Sales Navigator, Handwrytten) for a private equity firm and selected the best-fit stack.
- Built and shipped a production multi-channel outreach workflow on Lemlist, with Instantly for domain warm-up/deliverability and Zapier for automated lead ingestion from Excel; owned the process end-to-end from research through deployment.

University of Massachusetts Amherst

Amherst, MA, USA

Head Teaching Assistant, Calculus

Sep 2024 – May 2025

- Led office hours and coordinated a team of TAs supporting 2,000+ students each semester in a large-enrollment Calculus course.
- Direct experience with where students got stuck motivated Math127GPT, an AI tutoring chatbot later built to extend that support at scale.

PROJECTS

Math127GPT - React, Vite, TailwindCSS, FastAPI, LangChain, AWS S3, FAISS

github/ShadowKrius/Math127GPT

- Built an AI tutoring chatbot used by 2,000+ Calculus students, with a FAISS vector store over textbook PDFs and LangChain + GPT-3.5 for context-aware, step-by-step explanations.

CodeStrike Go - React, WebSockets, Firebase, CodeMirror, Docker

github/ShadowKrius/CodeStrike

- Built a competitive coding platform enabling real-time 1v1 code battles, with matchmaking and an ELO-based skill rating system for balanced competition.
- Designed scalable infrastructure with Docker and Firebase, integrating CodeMirror and WebSockets for a low-latency collaborative code editor.

TECHNICAL SKILLS

Python, Java, TypeScript, JavaScript, C, Dart, HTML, CSS | FastAPI, React, Next.js, Flutter, Firebase, LangChain, Docker | OpenAI API, FAISS, Pandas, TensorFlow, Scikit-learn | Zoho Creator/Deluge, Zapier, Git

ACHIEVEMENTS

- Won “Best Generative AI Hack” - HackHer(413) 2025, and “Best UMass Hack” - HackUMass XII 2024
- Secured \$7,000 in funding winning the Berthiaume Executive Pitch Competition for Roommatez, a roommate-matching app
- Awarded \$46,000 Chancellor's Scholarship; Dean's List for seven consecutive semesters (2023-2026)
